

AI Prompt Used:

Write a C++ console-based program that generates funny roasts based on a user's name. The program should produce different roasts each time it runs by randomly selecting from multiple roast templates.

Incorrect Output:

```
Problems Output Debug Console Terminal Ports

PS C:\Users\Rohan\Documents\AG> g++ -mconsole AIRoastGenerator.cpp
PS C:\Users\Rohan\Documents\AG> .\a.exe
Enter your name for a roast: Rohan

Preparing the burn...
≡föÑ If Rohan were a spice, they'd be flour. ≡föÑ
PS C:\Users\Rohan\Documents\AG> |
```

Correction Prompt:

≡föÑ is being displayed before and after a roast

Correct Ouput:

```
C:\AIRoastGenerator.cpp
6  int main() {
16     std::vector<std::string> roasts = {
24         "(name)'s secrets are always safe with me. I never even listen when they tell me them.",
25         "Some day (name) will go far. And I hope they stay there."
26     };
27
28     // Set up random number generator
29     std::random_device rd;
30     std::mt19937 gen(rd());
31     std::uniform_int_distribution<> distrib(0, roasts.size() - 1);
32
33     // Pick a random roast
34     int randomIndex = distrib(gen);
35     std::string selectedRoast = roasts[randomIndex];
36
37     // Substitute the name into the placeholder
38     size_t pos = selectedRoast.find("(name)");
39     if (pos != std::string::npos) {
40         selectedRoast.replace(pos, 6, name);
41     }
42
43     std::cout << "\nPreparing the burn...\n";
44     std::cout << "***" << selectedRoast << "***\n";
45
46     return 0;
47 }
48
```

Preparing the burn...
≡föÑ If laughter is the best medicine, Pingu's face must be curing the world. ≡föÑ
PS C:\Users\Rohan\Documents\AG> g++ -mconsole AIRoastGenerator.cpp
PS C:\Users\Rohan\Documents\AG> .\a.exe
Enter your name for a roast: Arjun

Preparing the burn...
*** I thought of you today, Arjun. It reminded me to take out the trash. ***
PS C:\Users\Rohan\Documents\AG> |

Write a C++ console-based program that generates funny roasts based on a user's name. The program should produce different roasts each time it runs by randomly selecting from multiple roast templates.

Worked for 4m >

Files Modified 1

C:\AIRoastGenerator.cpp

≡föÑ is being displayed before and after a roast

Worked for 6m >

User cancelled agent execution.

Files Modified 1

C:\AIRoastGenerator.cpp
